

HAVE YOU EVER WONDERED WHAT HAPPENS TO YOUR ASSETS AT THE END OF YOUR CONTRACT?

COLLECTION & DISPOSAL

Once all your equipment that needs to be collected is stored in a central location, a date will be agreed for collection.

We will take it to our premises to sanitise the data and send you a report.

SALE OF EQUIPMENT

After receiving your equipment, you get a complete statement including:

- Quantity
- Condition
- Technical specifications of the individual products

COMPLETE DATA REMOVAL

We provide secure data destruction via industry leading data erasure software such as EDR HDC -V, EV 25e shredder or via Blancco to ensure WEEE (Waste Electrical and Electronical Equipment) compliance.

Once done, we send you a certificate as proof.

GOODBYE THROWAWAY SOCIETY. HELLO SUSTAINABLE SOCIETY!

RECYCLING

We recycle your goods in compliance with the W.E.E.E. directive.

We remove all external characteristics identifying you, such as stickers and/or nameplates.

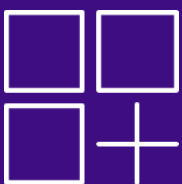

We dismantle all digital waste at no charge and refurbish it into semi-finished products.

We dispose of any dysfunctional product in line with W.E.E.E. certified organisations that specialise in collecting and processing companies' electronic equipment.

We send you a destruction certificate.

TRADE & BROKE

All these services (collection, audit, data erasure, recycling and remarketing) can also be used for any equipment you owned (even if they are not part of an Econocom contract).

By transitioning from the wasteful 'take, make, dispose' linear operating model to a more responsible all-encompassing economy:

- **YOU HELP THE ENVIRONMENT**
- **YOU PLAY YOUR PART IN THE CIRCULAR ECONOMY**
- **YOU GIVE YOUR ASSETS A SECOND LIFE**
- **YOU ENSURE THAT ALL USED EQUIPMENT IS FIT FOR REUSE**
- **YOU PROTECT YOUR DATA**
